Adam's Immediate Descendants

The Tower of Babel

Genesis 10 gives us the earliest table in existence of the origin of the nations.

Shem, Ham, and Japheth, the sons of Noah, became the founders of the three great racial families of the earth.

The Semitic tribes descended from Shem;

The dark-skinned African and the Canaanite races descended from Ham;

The other nations descended from Japheth.

The building of the Tower of Babel was an attempt by man to build a united world society from which God was to be excluded. It ended in judgment, the confounding of human speech, and the scattering of the human family to the ends of the earth.
